About Alexandre Rosenberg

In ten years of existence, the Alexandre Rosenberg brand has forged its reputation by cultivating an intimate stylistic identity, while developing a collection of exclusive jewelry.

The brand is now taking the concept of jewelry customization to another level thanks to its innovative website; a place of inspiration and creation for those who wish to acquire the exceptional: a one-of-a-kind jewel that echoes their personality.

CHALLENGE

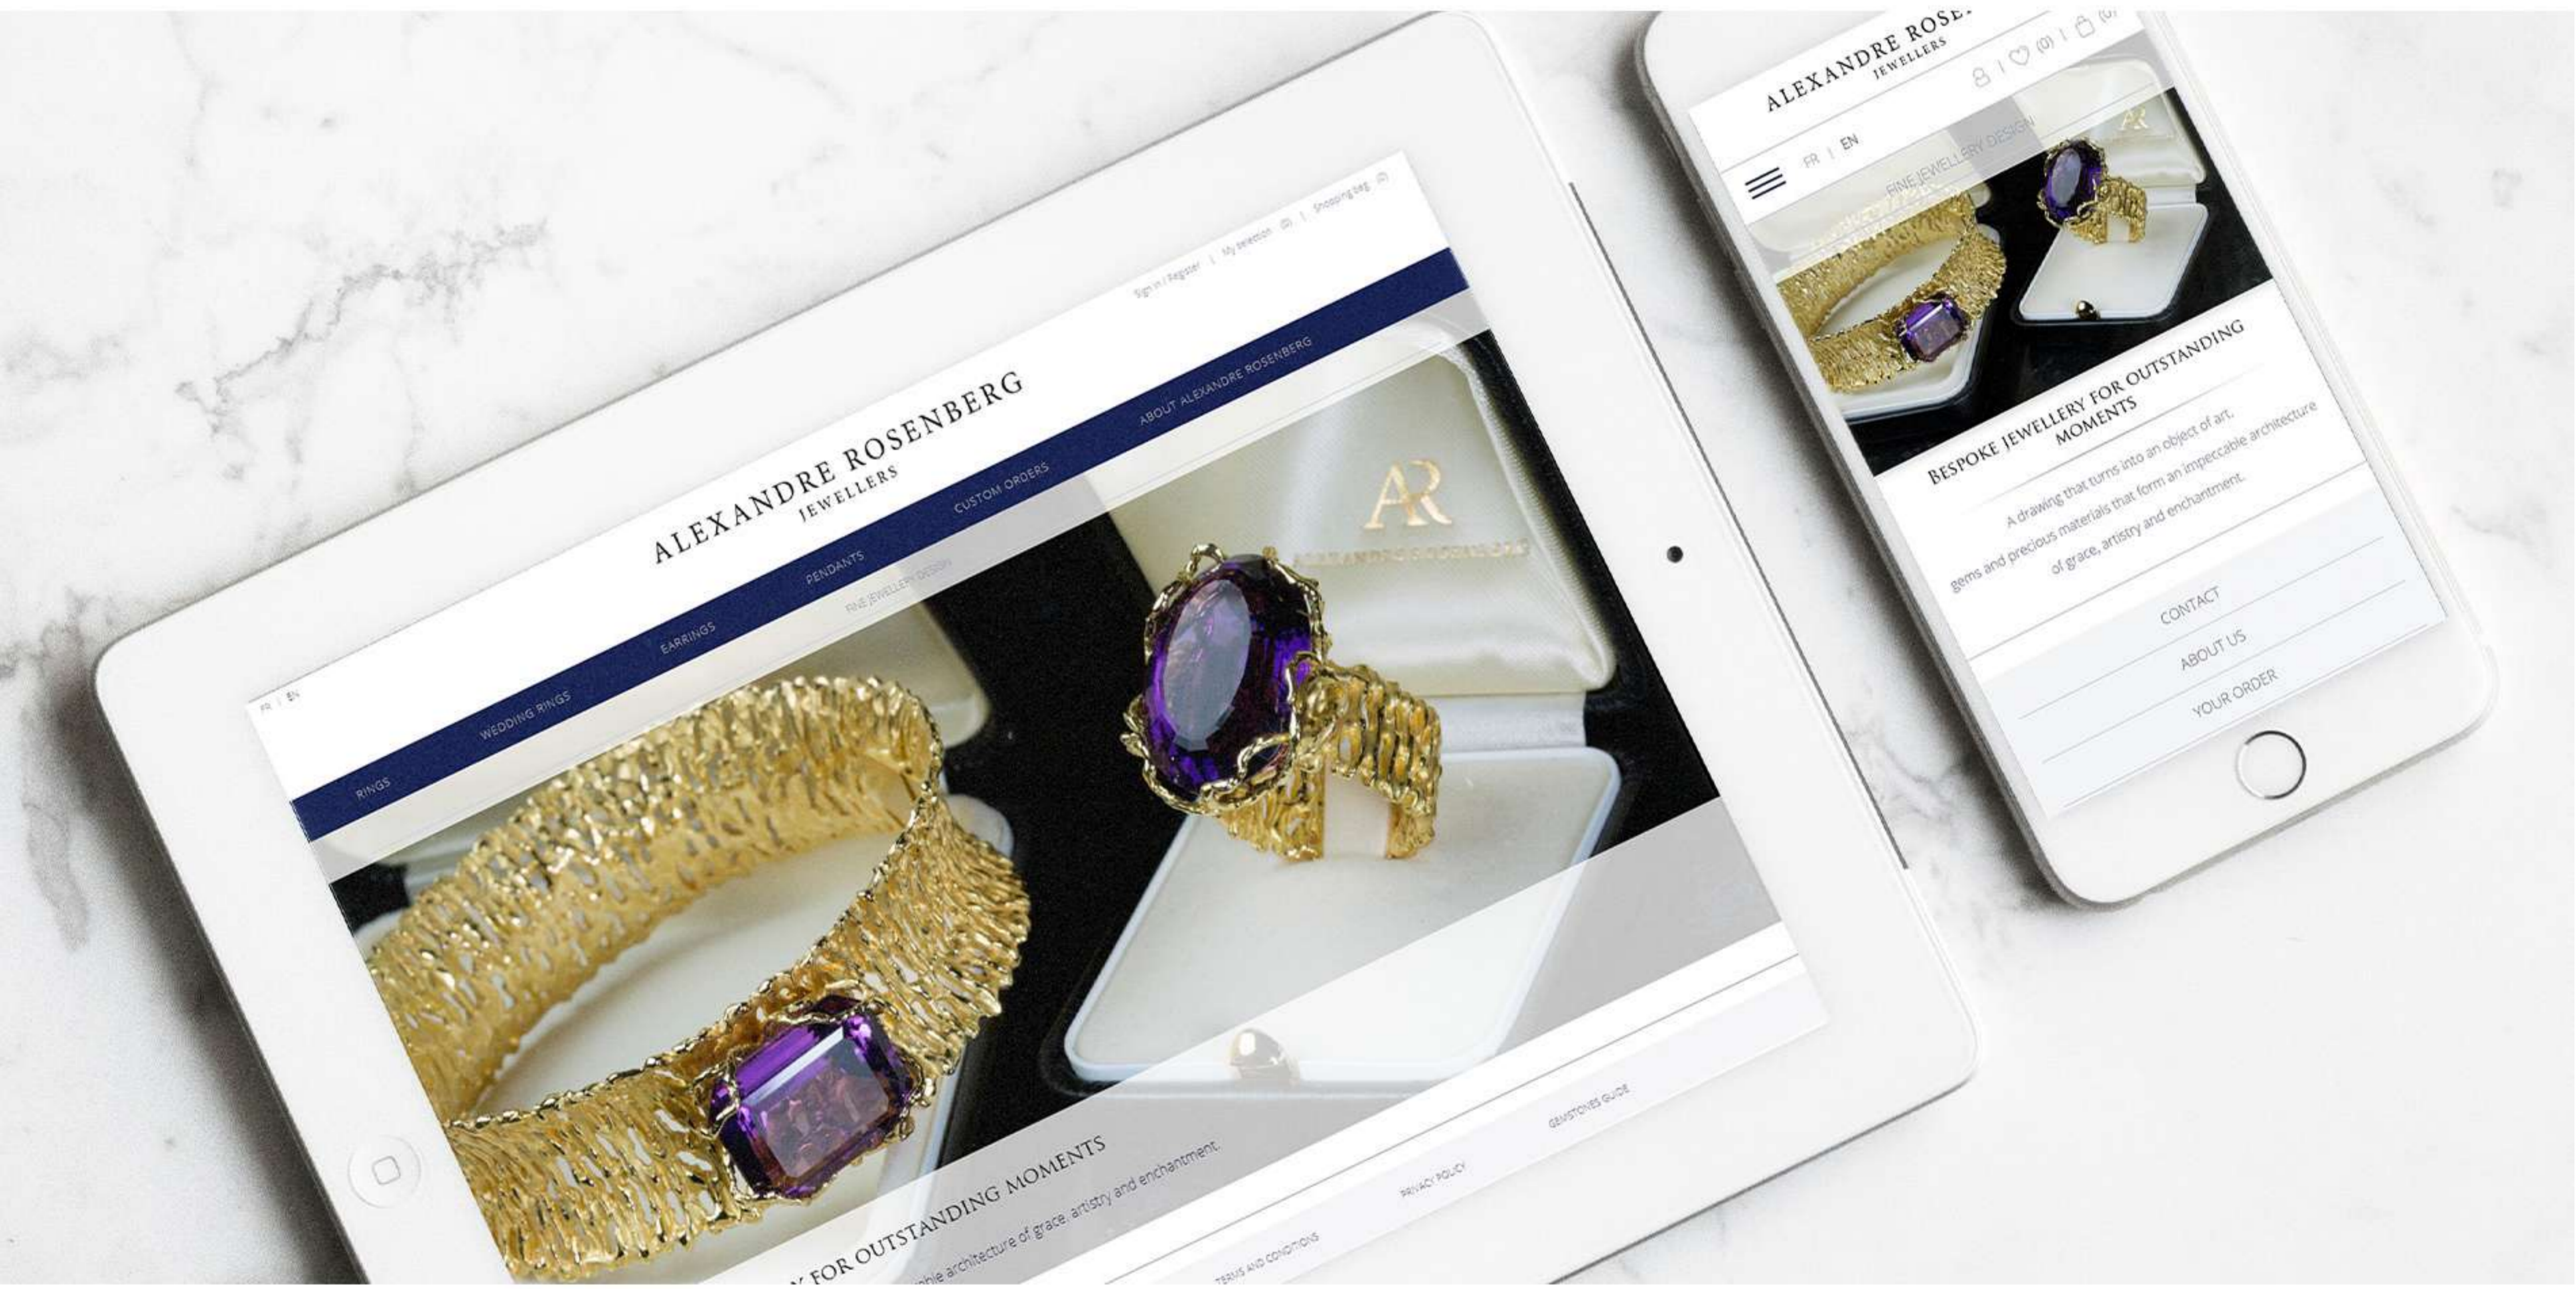

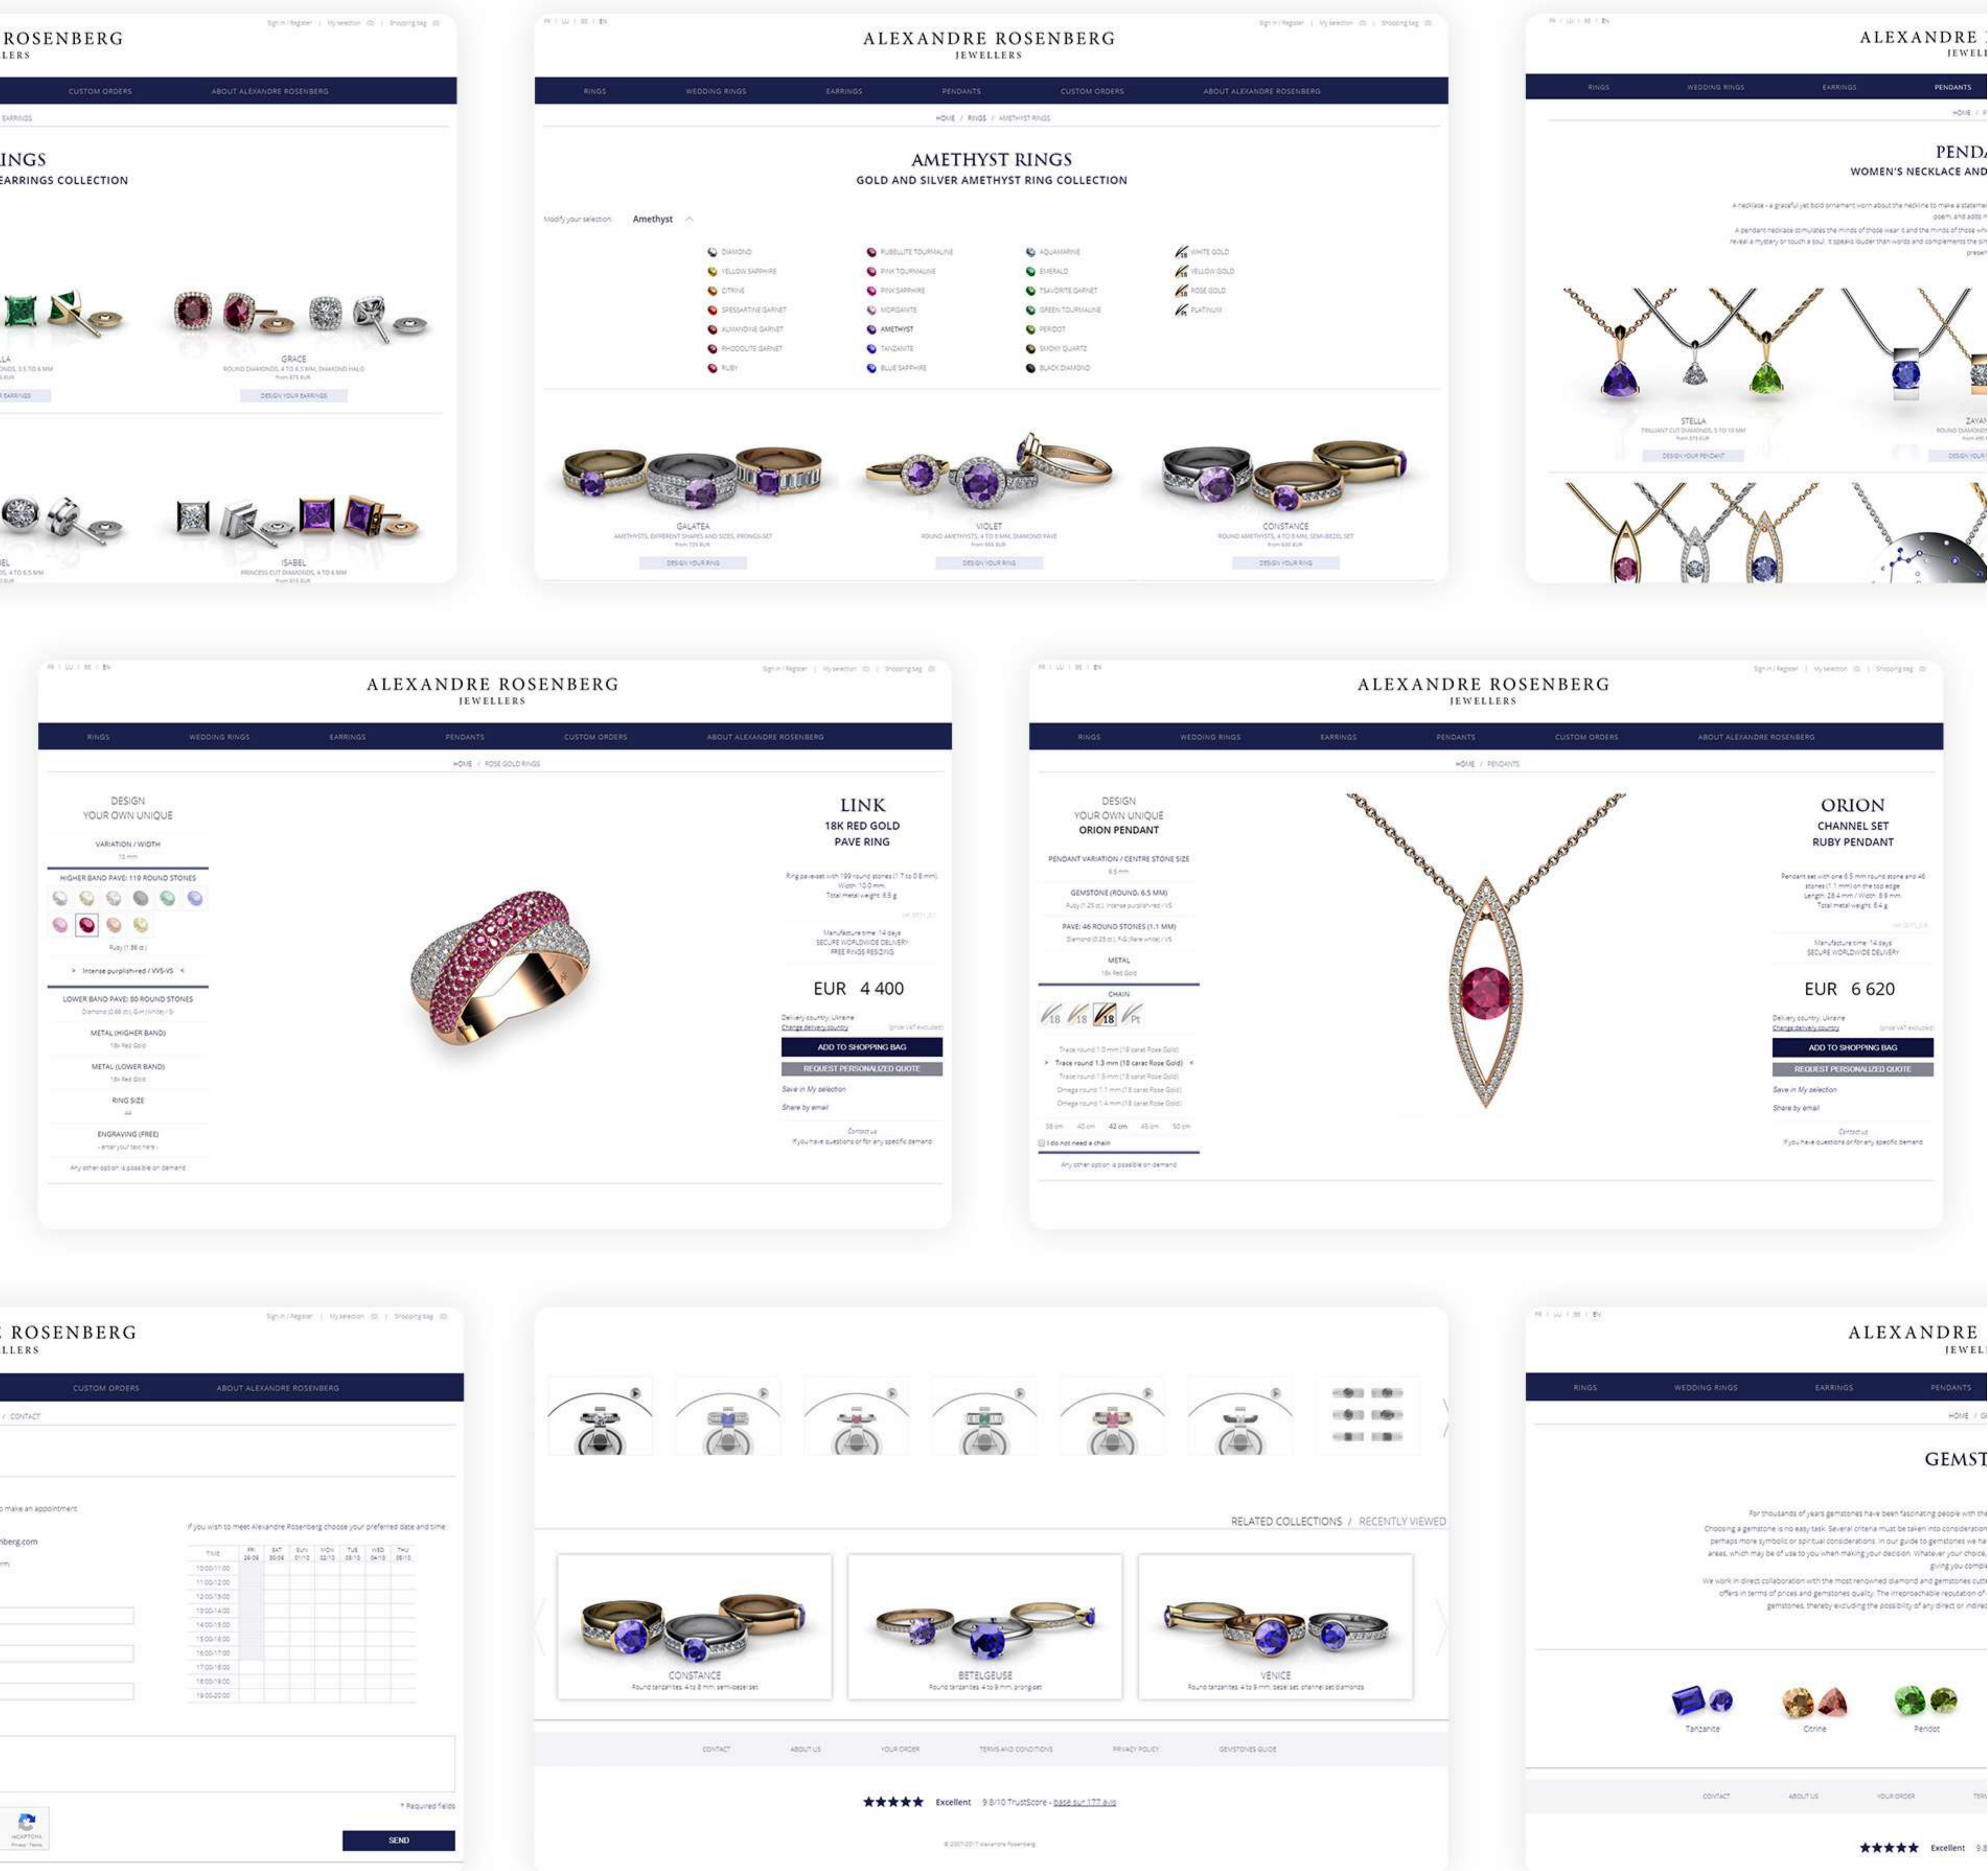

The client needed a new user-friendly website to increase sales. Also, the handy backend was required to automate the process of managing products and sales processes.

SOLUTIONS

Axisbits has fully developed the website, implementing all features requested by the customer. We used all modern web technologies and created beautiful and fast mobile-friendly website.

RESULTS

As a result, the site generates good traffic of potential customers and helps to automate sales processes.

User-friendly Mobile Version

We used all modern web technologies and created beautiful and fast mobile-friendly website.
